1. From 25 to 30 ground attack aircraft were parked on the southern edge of the Doeberitz (N 53/Z 65) airfield and the same number on the northern edge between 10:30 and 11:30 a.m. \*
2. The planes were of the same type previously seen there, but the cockpit was rounded above and **to the rear contrary to the** previously described angular shape. A barrel which could be traversed perpendicularly projected beyond the rear section of the cockpit. **Provision** for a lateral traversing motion was not noticed. The gun possibly could be traversed together with the entire rear of the cockpit. All aircraft had a directional loop antenna forward of the rudder assembly.\*\*

3. Crates with bombs, about 1.4 meters long and 20 cm in diameter, were lying near some planes at about 11:30 a.m. [REDACTED] had hauled the bombs to the field.
